Residents of Marklund

For several years, the Park District has been very lucky to have help from residents of Marklund, which is a nonprofit organization that serves children and adults with profound developmental disabilities and special healthcare needs. They clean the toys and equipment used by the District’s preschool program and early childhood classes so that little ones are able to safely enjoy their toys at playtime. Marklund residents have also helped stuff eggs for the annual egg hunt.

At the 2018 Recognition Event, Marklund volunteers were given “Superstar” t-shirts as a token of the District’s appreciation for their generous help. Volunteer Coordinator Lara Piner said, “Please know that each one of you are very near and dear to the staff at Pottawatomie Community Center. We enjoy seeing your smiling faces every day and appreciate all of your help.”
