D303 students are always a huge help. Last winter break, both North and East Boys and Girls basketball teams stuffed about 6,000 eggs for the egg hunt in a matter of a few hours. The teens seemed genuinely happy to stuff the eggs for the younger kids who attend and were talking about their own memories attending the egg hunts as children.

The East Football team assisted Otter Cove with a pre-season clean and setup. Each fall, Richmond 4th graders work on a civic project and then pick a day in October to walk to Kehoe park and rake leaves as part of their giving back. More than 300 Wredling Middle School students helped collect seeds, did a brush cleanup, helped dig a sand box for the nature playground and removed brush from some of natural areas and Hickory Knolls and Delnor Woods.
